Lee West

by [Evan Orensten](#)

Lee West is a young English designer who has been working in Paris since 2000. He's quickly made a name for himself "Create(ing) useful objects with maximum material quality" for Ligne Roset, Cinna, Arc international, Paco Rabanne perfumes and Seiko. We like his sensibility for organic forms and mirrored surfaces.

Here are a few of his works ([more after the jump](#)):

His [Boss table lamp](#) in double cased white and transparent cut glass for Cinna, above right, and his [Supernova floor lamp](#) in triplex glass from Cinna, above left
